Meet the refurbished MasterPac T

Life Is On

Embrace a new journey with **Circular Economy**

Our closing the loop approach is aimed at reducing waste within the entire product lifecycle to ensure optimal use of resources.

This label reflects the comprehensive refurbishment process that these products undergo. These products may originate from used or unused stock and undergo a thorough process that includes diagnostics, repairs, testing, and repackaging.

This process ensures that the configuration, software, and data are reset. Like our Checked & Repacked products, they also carry the same warranty as new products.

Schneider Electric is committed to making the most of our resources for a more sustainable world. **Life Is On.**

Refurbished MasterPacT

Proven quality you can rely on, yet even more sustainable.

A classic MasterPacT model with a reduced environmental footprint.

Our refurbished MasterPacT reuses a minimum of 40%* of raw materials, promoting sustainability and supporting continued business operations.

*Results may vary as per configuration and Schneider Electric's continuous improvement.

SUSTAINABLE

Reduced environmental footprint due to re-use of embodied materials.

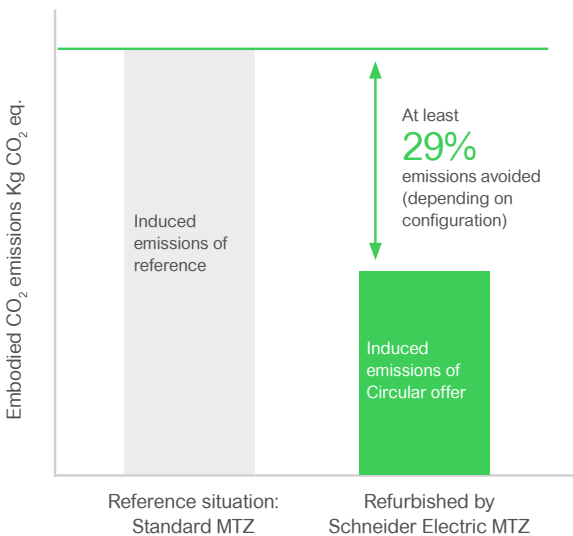

RELIABLE

Compliant to IEC 60947-2 standards of manufacturing ensuring maximum reliability.

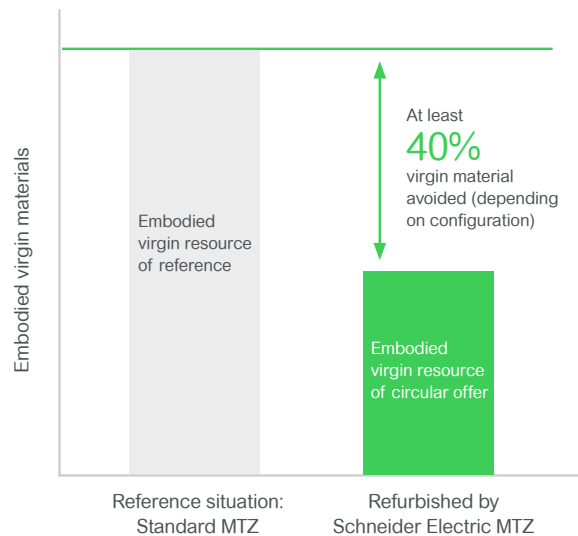

TRANSPARENT

Transparent with any product limitations.

Fossil Fuels

Metals & Minerals

The estimated avoided emissions are based on data that were rendered from extrapolation and comparison to the Product Environmental Profile of the standard offer.

A dedicated process helping to evolve more sustainable operations

All products "Refurbished by Schneider Electric" are:

Fully diagnosed, completing any re-configuration opportunities designed to meet specific customer demand.

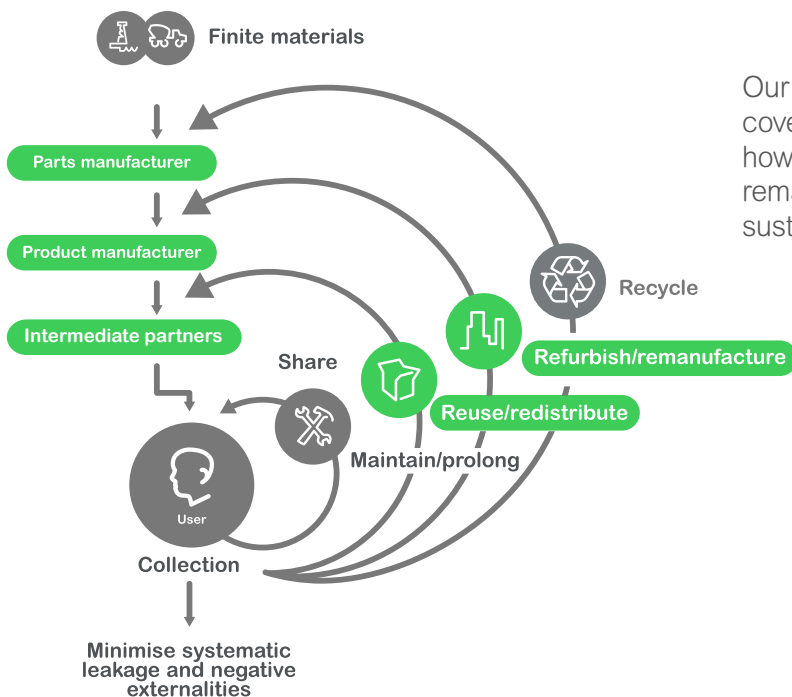

Fully quality checked and modified at the facilities with 9001 Quality, 14001 Environment, and 45001 Safety certified.

Subjected to the same functional tests as new products according to IEC 60947-2.

We commit to the product's quality. Products that do not pass any of the above re-qualification steps are deemed to be recycled.

Our Refurbished by Schneider Electric label covers multiple products and businesses, however our value proposition always remains the same. Offering transparent, sustainable, and reliable product choices.

Efficiently transparent until end-of-life

We supply all relevant information so you know you are getting products that you can rely on.

Based on the arrival of each batch of recollected products, Schneider Electric commits to transparently inform each customer in case of technical or functional deviation from the latest MasterPacT offer range.

MasterPacT MTZ

Reprocessing helps save the planet

Every refurbished product purchased = production avoided.

Reduce your environmental impact with our refurbished MasterPacT offer. Schneider Electric's commitment to sustainability means these products are rebuilt to meet original specifications, reducing emissions and natural resource consumption.

While our refurbished MasterPacT offer provides significant environmental and economic benefits, it may not be suitable for every project. We carefully evaluate each request based on:

- Availability of compatible refurbished units in our inventory
- Compatibility of refurbished units with your specific application requirements

This ensures you receive the best possible solution for your needs.

Our refurbished products meet all IEC 60947-2 standards without compromise.
